ADOPT A LANGUAGE

wycliffe LINKS

As a church, partner with a language group to practically love and serve the church and community.

We are currently giving hope through Bible Translation to over 24 language communities, impacting over 11.5 million people. We love seeing communities come alive as they receive the Scriptures in their own language.

Join us by adopting a language group and take partnership to the next level: as a church, love and serve a translation community as God leads you. You will receive regular updates, stories and prayer needs.

WHY ADOPT A LANGUAGE?

Translation teams go through many difficult things as they work to translate the Bible into their own language. Walking with teams and communities as they do this provides much-needed encouragement and practical support, rooted in a foundation of prayer.

THIS COMMITMENT INCLUDES:

- Committing to pray, as a congregation, for the chosen language group during one phase of their translation work (usually 3-4 years).
- Celebrating, mourning and persevering with the translation team as they translate God's Word into their heart language.
- Interceding on behalf of the language group churches and communities as they receive God's Word and integrate it into all areas of life and faith.
- Seeking God's guidance and direction for how best to love and serve the language group.

WYCLIFFE SOUTH AFRICA PROMISES TO:

- Provide information and media about the chosen language group.
- Keep you updated about the translation progress and impact stories from the communities.
- Keep you updated with prayer requests and needs.
- Get in touch at the end of the translation phase to discuss recommitment.

COMMITMENT

We agree to adopt the ..... language group for Phase ..... of the translation.
